

Presentation Schedule:

T32 Session 1 (Bluegrass Ballroom 1)

Moderators: Dr. Lisa Cassis and Dr. Curt Sigmund

- 9:00 AM **Jason Meyer**
Selective CE Uptake Contributes the Majority of Macrophage Cholesterol Uptake During Formation From Native LDL
- 9:15 AM **Sasha Bogdanovich**
The Effect of Soluble Vegf Receptor on Macrophage Infiltration in Corneal Neovascularization
- 9:30 AM **Nicki Baker**
The Role of Polychlorinated Biphenyls in the Development of Diabetes
- 9:45 AM **Jo-Ann Eastwood**
Psychosocial Stress and Coronary Artery Atherosclerosis in Premenopausal Women
- 10:00 AM **Christine Waters**
The Immunomodulatory Effects of Massage
- 10:15 AM Break

T32 Session 2 (Bluegrass Ballroom 1)

Moderators: Dr. Susan Smyth and Dr. Clyde Yancy

- 10:45 AM **Shawn Stasko**
Sphingomyelinase Impairs Diaphragm Contractile Function Through Mitochondrial Reactive Oxygen Species
- 11:00 AM **Joe Layne**
Group X Secretory Phospholipase A2 Regulates LXR Target Gene Expression in Macrophages: Functional Implications
- 11:15 AM **Paul Mueller**
Functional Validation of a Polymorphism in PPAP2B that Associates with Coronary Artery Disease
- 11:30 AM **Gretchen Wolff**
What Time Is It? Exploring Circadian Rhythms, the Molecular Clock and Time Cues in Skeletal Muscle
- 11:45 AM **Matthew Parker**
The Molecular Basis for Differences in VEGF-A Isoform Functionality
- 12:00 PM Lunch
